

SOWMIYA JAYASEELAN

Supply Chain Analyst | FMCG Analytics | MSc Supply Chain & Logistics Management
Coventry, UK | sowmiyagunal04@gmail.com | linkedin.com/in/sowmiya-jayaseelan

PROFESSIONAL SUMMARY

MSc Supply Chain & Logistics Management candidate (Predicted: First Class with Distinction, Coventry University) with proven analytical capability in demand forecasting, inventory optimisation, S&OP modelling, and end-to-end FMCG supply chain operations. Proficient in Python (XGBoost, Prophet, ARIMA), Power BI, and SAP ERP, with a Lean Six Sigma Yellow Belt, Certified Supply Chain Analyst and Unilever Supply Chain Data Analyst Certification.

CORE COMPETENCIES

Supply Chain Analytics · Demand Forecasting & Sensing · S&OP & Scenario Modelling · Inventory Optimisation · Procurement & Supplier Management · Lean Six Sigma (SMED, MOST) · ERP Systems (SAP) · Capacity Planning · Supply Chain Visibility · Replenishment & SKU Management · KPI Tracking & Reporting · Sustainability Evaluation

WORK EXPERIENCE

Warehouse Operative

Jan 2026 – Feb 2026

Royal Mail · Coventry, UK

- Processed 500+ parcels per shift, maintaining 99%+ dispatch accuracy across high-volume last-mile logistics operations.
- Conducted quality control assessments across 3 warehouse teams, ensuring full compliance with operational standards and H&S protocols.
- Drove cross-functional dispatch coordination during Q4 peak demand, sustaining 99%+ service-level compliance.

Warehouse Operative

Oct 2025 – Dec 2025

Evri · Coventry, UK

- Managed inbound/outbound parcel sorting across a large-scale distribution network at >98% operational accuracy.
- Coordinated with 3 cross-functional warehouse teams to sustain on-time delivery during peak seasonal demand.
- Monitored real-time workflow efficiency, applying lean principles to eliminate processing delays.

Process Optimisation Intern

Jul 2024 – Aug 2024

Krysalis Consultancy Services · Chennai, India

- Applied Maynard Operation Sequence Technique (MOST) to analyse 6+ task sequences, reducing operational delays by ~12%.
- Implemented SMED methodology across 2 production lines, cutting changeover time by ~20%.
- Led capacity planning for 3 production lines, improving manpower/machine utilisation by ~18%.
- Delivered cost-benefit analysis of 4 resource allocation strategies, contributing to an 8–10% cost reduction.

Industrial Operations Intern

May 2023 – Jun 2023

Voltech Group · Chennai, India

- Conducted end-to-end analysis of 2 production and supply chain workflows, identifying 5+ critical bottlenecks.
- Drove PPC activities across 3 departments, reducing inter-departmental coordination delays by ~20%.
- Mapped material flow inefficiencies, enhancing labour utilisation by ~12%.

KEY PROJECTS

Adaptive Demand Sensing & Inventory Decision-Support Framework | MSc Dissertation

Engineered an end-to-end adaptive demand sensing framework for e-commerce retail supply chains, benchmarking ARIMA against ML models (Prophet, XGBoost) across volatile, multi-SKU demand environments. Designed interactive Power BI and Tableau dashboards for real-time supply chain visibility.

Supplier Sustainability Rating Tool (SSRT) for FMCG Supply Chains

Architected a multi-criteria supplier evaluation framework using sustainability KPIs, reducing 35 criteria via PCA to 9 AHP-weighted factors. Improved end-to-end procurement transparency by ~30% across the supplier lifecycle.

EDUCATION

MSc Supply Chain & Logistics Management

Sep 2025 – Sep 2026 (Expected)

Coventry University, UK · Predicted: First Class with Distinction

Dissertation: Adaptive Demand Sensing & Inventory Decision-Support Framework

BEng Industrial Engineering

Graduated May 2025

College of Engineering Guindy, Anna University, Chennai · GPA: 7.6/10

CERTIFICATIONS

Certified Supply Chain Analyst (CSCA) – Chartered Institute of Professional Certifications · Unilever Supply Chain Data Analyst Certification · Lean Six Sigma Yellow Belt · The 5S System – Workplace Optimisation · Applied Ergonomics

TECHNICAL SKILLS

Analytics: Python (XGBoost, Prophet, ARIMA, Pandas, NumPy), SQL

Visualisation: Power BI, Tableau, Excel Dashboards

ERP & Platforms: SAP IBP, Microsoft Office Suite

SC Methods: MOST, SMED, Lean Six Sigma, S&OP, Capacity Planning

SC Metrics: MAE, RMSE, MAPE, Replenishment, SKU Mgmt.
